G-TEK POLYKOR NITRILE COAT, MICRO GRIP

PIP 16-350

PolyKor: Products constructed with PolyKor® engineered yarn are ideal for handling and assembly of medium to large parts and materials, metal fabrication, parts cleaning, mechanical equipment maintenance and repair, and medium to heavy fastening and anchoring.

- Seamless construction offers increased comfort and breathability
- PolyKor™ shell is lightweight and provides excellent dexterity, tactile sensitivity and cut resistance
- Double-Dipped Nitrile MicroSurface coatings are impermeable providing an elevated grip in dry and oily conditions, infused with thousands of tiny suction cup pockets that create a vacuum effect that dispenses fluids away on contact
- Knit wrist helps prevent dirt and debris from entering the glove
- Washable, resistant to chemicals, water, and ultraviolet light

**BUY NOW**

MAXIFLEX ULTIMATE BREATHABLE COATED GLOVES

PIP 34-875

Designed and developed as a breathable glove, MaxiFlex® Ultimate™ has become the benchmark for precision handling in dry environments.

- Micro-foam nitrile coatings are compatible with light oils and will provide a good grip and excellent abrasion resistance
- Raised micro dots increase durability and offer more cushioning in highly repetitive applications requiring precision handling
- 100% silicone free
- Knitwrist helps prevent dirt and debris from entering the glove
- 25% thinner than most foam nitrile gloves on the market while offering twice the mechanical performance

**BUY NOW**

G-TECK PREMIUM GRADED COATED GLOVES

PIP 39-C1300

G-Teck Premium Graded Coated Gloves are ideal for handling and cleanup of abrasive parts and materials, demolition, masonry and tile, metal fastening, and assembly.

- Seamless construction offers increased comfort and breathability
- Latex crinkle coatings feature creases or wrinkles on the surface of the coating that are designed to channel fluids away allowing better contact on dry or wet surfaces – a natural rubber that is flexible, tough and durable due to its high degree of resistance to snagging, puncture, and abrasion
- Knit wrist helps prevent dirt and debris from entering the glove
- Ergonomic shaped curved finger pattern
- Washable, resistant to chemicals, water, and ultraviolet light

**BUY NOW**

MAXIFLEX® ENDURANCE™ NITRILE COATED GLOVES

Seamless Knit Nylon Glove with Nitrile Coated MicroFoam Grip on Palm, Fingers & Knuckles - Micro Dot Palm.

- Micro foam nitrile coatings are compatible with light oils and will provide a good grip and excellent abrasion resistance
- Raised micro dots increase durability and offer more cushioning in highly repetitive applications requiring precision handling
- 100% silicone free
- Knitwrist helps prevent dirt and debris from entering the glove
- 360° breathability patented micro-foam nitrile coating offers 360° breathability, making it the most breathable glove on the market today
- 25% thinner than most foam nitrile gloves on the market while offering twice the mechanical performance

TUFLEX POLYESTER ROUNDSLING

Tuflex Roundsling is an endless synthetic sling made from a continuous loop of polyester yarn covered by a double wall tubular jacket.

- Color-coded capacities for quick identification
- No loss of strength from abrasion to cover
- Independent core yarns choke tightly but release easily after use
- Tuff-Tag provides required OSHA information for the life of the sling
- The most flexible style of sling

LOAD HUGGER WINCH STRAP LIF 61201

[BUY NOW](#)

Lift-All Load Hugger straps have an eye or hook on one end, with the other end free to place into the mandrel slot on 4" portable or weld-on winch.

- Polyester webbing conforms to the shape of the load being secured
- Various end fittings available
- Flexible, conforms to the load for better control
- Use with winch for fast, easy load securement
- Has no sharp edges to cut webbing

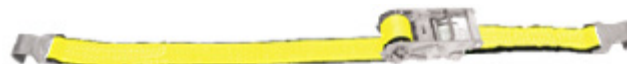

LOAD HUGGER LIF 60501X18

[BUY NOW](#)

Lift-All 5K Load Hugger, Ratchet with flat hook, poly, light duty cargo straps 2" x 18'

- Light weight and easy to handle
- Web is soft and will not damage cargo
- Adjustable ends are doubled over and stitched to prevent end from coming out

EDGE DEFENDER FLEX PLUS FLAT AND TUBULAR QUICK SLEEVES

[LEARN MORE](#)

Edge Defender Flex Plus made with Dyneema™ fiber is woven to provide cut protection for a variety of edges and surfaces.

- Double-ply layer of Dyneema with Kevlar
- Well suited for handling loads with a straight, curved or non-uniform shaped edge
- Hook and loop straps allow quick attachment and help to keep position on slings
- Open design allows easy access to slings during frequent inspections

HOSE HALTERS

[LEARN MORE](#)

Lift-All Hose Halters minimize thrashing to reduce equipment damage and personal injury.

- Suitable for use on pneumatic, water, and hydraulic pipes and hoses
- Easy to install straps are made from strong, flexible nylon webbing
- Rubber grommets keep choked eyes snug on the hose
- Meet both OSHA and Canada OHS requirements from restraining devices on pipe and hose connections

MANUAL & LEVER CHAIN HOISTS

LEARN MORE

Designed and crafted from high quality materials, Lift-All manual chain hoists are a lightweight and economical solution for your industrial applications.

- Economical and easy to operate
- Power-coated or plated housing and hooks protect from corrosion
- Fully enclosed gearing protects from contamination
- Enclosed, self-adjusting Weston style mechanical load brake
- The lever chain hoist has easy one-handed operation and set-up and operates in any orientation

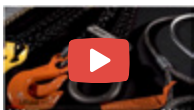

ALLOY CHAIN SLINGS

Lift-All Chain Slings are recommended for rugged industrial applications in harsh environments.

- Available in G100 up to 3/4", and G80 up to 1-1/4"
- Permanent steel capacity tag is serialized for identification
- Can be repaired and re-certified by Lift-All Company

MARKAL® B PAINTSTIK®

MULTIPLE COLORS AVAILABLE

Combines the durability of paint in the convenience of a crayon for multi-purpose permanent marking. Product used in QC processes to ensure a safe and quality manufactured product.

- Real paint formula for long-lasting, highly-visible marks
- Superior marking performance on rough, rusty, smooth, or dirty surfaces
- Works on oily, icy, wet, dry or cold surfaces
- Solid paint marker eliminates replacement tips, sharpening or priming, increasing productivity
- Weather- and UV-resistant for long-lasting marks

SILVER-STREAK® METAL MARKER 96006

Ideal when highly-visible, torch-resistant marks are required during metal layout and fabrication work. Reflective mark ensures safe and accurate cuts or welds.

- Highly-visible marks illuminate when cutting or welding
- Unique reflective lead is more visible through a welder's filter plate and will not rub, burn or blow off like soapstone
- Marks on oily, wet or rusty metals, and will not scratch or abrade surfaces
- Durable mechanical holder prevents stick breakage
- Built-in sharpener and pocket clip for easy storage

MARKAL® VALVE ACTION PAINT MARKER

MULTIPLE COLORS AVAILABLE

The most versatile liquid paint marker in the world. Fast-drying, permanent paint that is safe for almost any surface. Used in QC processes as a witness mark or personnel identifying mark to ensure a safe and quality product.

- Provides long-lasting, wear- and weather-resistant marks that are safe for almost any surface
- Dura-Nib medium bullet tip resists wear to provide long marking life
- Durable metal barrel and clip-cap reduce breakage and store easily in pocket
- Xylene-free paint reduces user health risks
- Available in 18 bold and fluorescent colors for accurate mark identification
